

# Gemini 6 Thunders Into Orbit Toward Sister Ship

**Rocket Soars Skyward  
In Perfect Blastoff  
Exactly on Schedule**

CAPE KENNEDY, Fla. (AP)—Astronauts Walter M. Schirra Jr. and Thomas P. Stafford rode the Gemini 6 spacecraft into an ideal orbit today and began maneuvering toward the greatest of all space adventures—a rendezvous with Gemini 7 high above the earth.

The space chase started with the thundering blastoff of a 90-foot Titan 2 rocket that soared skyward exactly on schedule at 8:37 a.m. (EST).

At 10:12 a.m. EST, near the end of the first revolution, Schirra made his first move toward a meeting of the sister ships. A blast from his jet thrusters adjusted the high point of his orbit and placed him 17 miles below Gemini 7 and 690 miles behind.

Gemini 7 entered its 163rd orbit at 10:12 a.m. EST. Only a few minutes after the perfect launch, Schirra and Stafford got a go-ahead from confident mission directors on the ground for a fourth-orbit rendezvous.

An elated Schirra responded: "You've got a big fat go from us!"

**Back in Suits**  
Gemini 7 astronauts Frank Borman and James A. Lovell, Jr. who had been flying in the comfort of their cotton underwear, were instructed to get back into their space suits for the completion of the rendezvous.

Borman and Lovell were about 185 miles high, some 200 miles south of the Cape, when the Titan blasted into the skies. "We didn't get to see the lift-off," Lovell called. "But we saw them coming through the clouds."

Six minutes later, when mission control announced that Gemini 6 had achieved its orbit, Gemini 7 had streaked 1,200 miles ahead and the chase was on—featuring a record east of four U.S. astronauts.

Borman and Lovell were nearing the end of the 11th of their 14 planned days in space. The dramatic pursuit was to cover about 105,000 miles during which Schirra and Stafford were to make a series of orbit-shifting maneuvers to gradually close with Gemini 6.

**Within 100 Feet**  
If all goes right, the rendezvous will take place at 2:25 p.m. EST today. At that time, the two spacecraft should be within 100 feet of each other, zipping along at 17,500 miles an hour 185 miles above the Mariana Islands in the western Pacific.

The Titan, which was frustrated the last second in an attempt to get off the pad last Sunday, performed perfectly today and, as it rose into the sky, flight director Christopher C. Kraft Jr. told Schirra and Stafford by radio: "You're right down the line, Gemini 6."

## Space Doctor's Plane

## Weather Delays Hunt For Missing Scientist

COLORADO SPRINGS, Colo. (AP)—An aerial search for a plane carrying the nation's director of space medicine, his wife and their pilot was suspended temporarily today because of snow and heavy clouds.

Even a briefing for Air Force pilots taking part in the search was delayed at Peterson Field in Colorado Springs, the search headquarters.

Four special Air Force rescue craft carrying survival gear and supplies that could be dropped to a crash scene and civilian volunteer planes joined more than 80 Civil Air Patrol fliers in the third day of the search.

**Survival Advocate**  
Air Force Lt. Col. William A. Ryan Jr., directing the search, said chances are good that Dr. W. Randolph Lovelace II, 57; his wife, Mary 53, and pilot, Milton Brown, 27, survived even if they were forced down in high mountains.

Ryan said Dr. Lovelace was an advocate of survival training and the party had warm clothing aboard.

The Colorado Civil Air Patrol was considering the possibility that the travelers never got beyond the 12,000-foot Independence Pass near Aspen after leaving the resort town Sunday on a flight to Albuquerque.

Maj. Elmer Smaller of Canon City said the plane was observed turning east after leaving Aspen, apparently attempting to fly over the pass. He said there was no evidence that it had cleared it.

A four-engine HC130 from Eglin Air Force Base, Fla., covered 700 miles in a three-hour search Tuesday between Aspen and Los Alamos, N.M.

Snow covered much of the 30,000-square-mile search area, making the task of spotting a white plane doubly difficult.

**It's Beginning to Look Like Christmas**

Fox Cities — Cloudy with a little light snow this afternoon through Thursday. Few degrees colder. Low tonight near 18 degrees; high Thursday near 25 degrees. Light westerly winds.

Appleton — Observations at 10 a.m. for preceding 24 hour period. High, 30. Low, 24. Barometer reading 29.82 and steady. Wind 8 miles out of the west. Relative humidity 87 per cent. Skies cloudy. Temperature at 10 a.m. 24.

## FPC President Testifies for Blackout Probe

**Isolated Systems  
Not the Answer  
Official Tells Inquiry**

WASHINGTON (AP)—The chairman of the Federal Power Commission, Joseph C. Swidler, told Congress today that isolated electric systems would not be the way to end widespread power failures such as the big blackout in the Northeast last month.

"Isolated electric systems are unthinkable in a modern industrial economy," Swidler told a House Interstate Commerce subcommittee. The group is looking into the cause and effects of the power failure in the Northeast and other failures in other parts of the country.

To reinforce his points, Swidler cited the example of a suspension bridge collapsing a few years back because of a form of instability. But, said Swidler, "we did not stop building bridges. We learned from that experience and now we build better bridges."

**Big Lesson**  
The big lesson of the Northeast blackout, he said, "is that we must strengthen our power grids so that they can hold together and continue service in any foreseeable contingency."

Swidler summarized his previous report to President Johnson on the power failure, telling how the blackout originated across the Canadian border, with an overload automatically tripping cutoff switches in the United States.

He said that if the FPC is to be effective in helping improve the quality and reliability of service it will need stronger laws, more money and a bigger staff.

Swidler said that as of now the commission is limited in respect to the development of power pools.

Swidler said the commission is discussing various legislative possibilities but "does not yet have any specific legislative proposal to put before you."

Swidler seemed to advocate that all types of electrical companies whether public, private, municipal, cooperative or located within a single state should come under any legislation to be passed.

Such a contention would put Swidler into a field of very high voltage—the argument over how far federal regulation should go.

**2,000 Kenoshans Cheer Viet GIs**  
KENOSHA (AP)—A lengthy telegram signed by nearly 2,000 Kenosha residents was sent to American servicemen in Viet Nam Tuesday.

The telegram, pledging support and prayers for the fighting men, required over an hour for transmission.

## Little Effect in Inquiry

## Interest Hike Probe Calls Outside Experts

WASHINGTON (AP)—The Senate-House Economic Committee turns today to outside specialists in its investigation of interest rising actions of the Federal Reserve System—an inquiry which seems to have changed no official minds.

Committee Chairman Wright Patman, D-Tex., told Federal Reserve Chairman William McChesney Martin Jr. Tuesday he hopes enough pressure will be brought on the board to induce it to reverse its decisions clearing the way for higher interest rates on loans and also on time deposits in banks.

Martin said the board "certainly will watch the effects carefully," but he and even those of his colleagues who voted against the increases have indicated throughout the hearings they see no chance of a change soon.

## Hope for Missiles, Also

## Rusk Tells NATO Red China Will Have Nuclear Stockpile

PARIS (AP)—Defense Secretary Robert S. McNamara said today Red China may have a small stockpile of nuclear weapons in two years and hopes to have a ballistic missile to deliver them.

McNamara told ministers of the North Atlantic Treaty Organization that the European members of the alliance should plan now to meet a Chinese Communist threat to their own security within five years.

He said the Chinese Reds were determined to become a major nuclear power. By 1975, he predicted, the Chinese Communists probably would not only have developed but also deployed intercontinental ballistic missiles. Such missiles presumably could reach targets all the way from San Francisco to Berlin and cities in between.

**Second Day**  
McNamara spoke on the second day of a NATO ministerial meeting. He spoke behind closed doors. His statements were relayed to newsmen by an American spokesman.

Secretary of State Dean Rusk appealed to U.S. allies Tuesday to send doctors and engineers to South Viet Nam but did not ask for troops.

McNamara stressed that grave as was the threat of Red China's growing might, the United States was going to stand firm behind its commitments to defend Western Europe from possible Communist aggression.

The United States govern-

ment does not intend to re-deploy major American combat units from Western Europe to Southeast Asia, he said.

McNamara said the West should find political and economic means to divert the Chinese Reds from the path of aggression. Such measures could have no hope of success unless the Western alliance maintained a military force strong enough to insure its own security.

## Wisconsin Soldier Gets Flying Cross

MERRILL (AP)—An 18-year-old Lincoln County soldier killed in Viet Nam has been awarded the Distinguished Flying Cross posthumously for his bravery under fire.

The medal was presented in a ceremony Tuesday night to Mr. and Mrs. Alvin Hipke of Gleason, parents of Pfc. Harry Hipke who died of injuries sustained Nov. 9 while one a helicopter flight.

The citation said Hipke placed deadly fire at point blank range on a Viet Cong position until his helicopter was hit by enemy fire causing it to crash in flames mortally injuring its entire crew.

Hipke, an Army machine gunner, had volunteered for a hazardous mission.

## Wind Up Talks

## LBJ Offers Ayub U. S. Medical Team

WASHINGTON (AP)—President Johnson, winding up talks today with Pakistan's President Mohammed Ayub Khan, has offered to send a team of medical teachers and scientists to Pakistan.

Johnson made the offer Tuesday night at a White House dinner honoring Ayub.

The mission of the medical team, Johnson said in offering a toast to the visiting leader, "would be to work with your own medical authorities in instituting a broad improvement in medical training—and in working with your people in improving rural health and public health."

He said the team would be led by Dr. Donald F. Hornig, White House science adviser.

**Need for Peace**  
Raising his glass, Johnson proclaimed a need to find peace in the world. He called for efforts to conquer "the curses of poverty, hunger, disease, illiteracy, the human and physical problems."

Ayub, in his toast to Johnson, thanked him for the offer of the medical mission and acknowledged that "our relations have to a certain extent been sore."

He attributed this to "misunderstanding" and said friendship between the United States and Pakistan "can be—must be maintained."

After the dinner, Johnson and Ayub had a 35-minute conference in the family quarters of

the White House. They were joined by Vice President Hubert H. Humphrey.

Earlier Tuesday, the two presidents had what Ayub described as a very frank but friendly private talk about the Kashmir dispute and Viet Nam.

Ayub, in one of the lightest official schedules on record for a visiting chief of state, scheduled no official meetings until a 5 p.m. conference with Johnson at the White House.

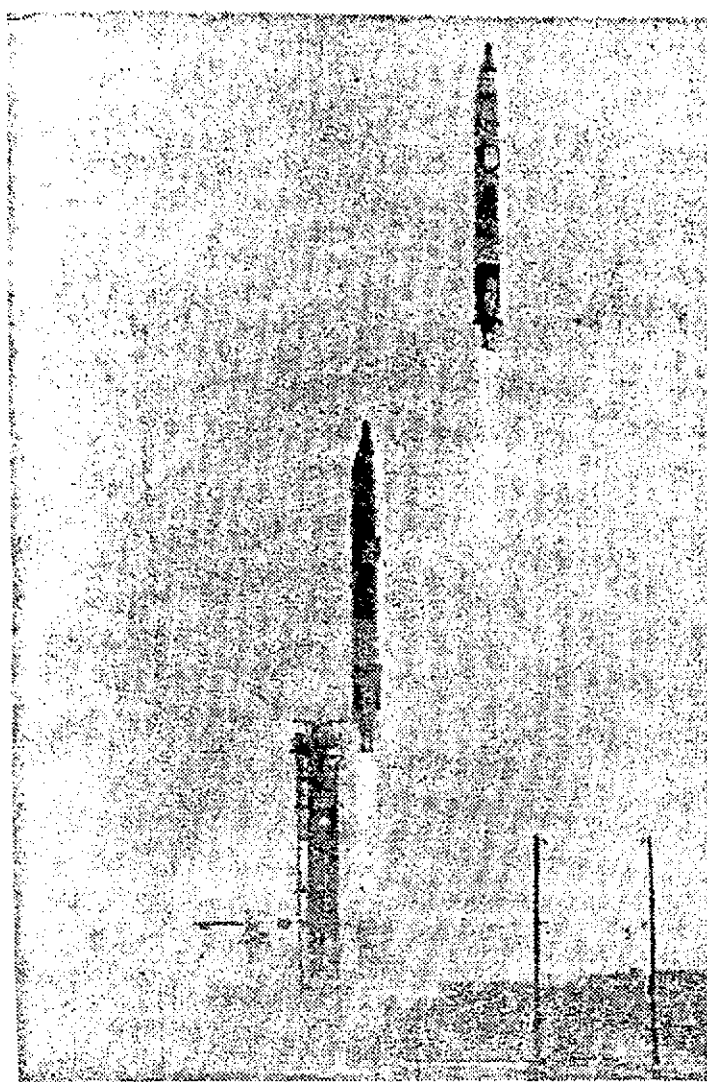

The Pakistan leader turned down an invitation to address the National Press Club and planned no news conferences or interviews. An aide said that this was to avoid any embarrassment over policy differences with the United States.

Pakistani President Mohammed Ayub Khan salutes as he stands with his host, President Johnson, on the south lawn of the White House where he was accorded a full military honor after he arrived for talks Tuesday. (AP Wirephoto)

## Air Force Blasts Red Power Plant

**First U. S. Strike in Heart of North Viet Nam's Industry**

SAIGON, South Viet Nam (AP)—U.S. Air Force F105 Thunderchief jets blasted a major power plant today 14 miles northeast of Haiphong, North Viet Nam's major port. It was the first American strike in the Communist foe's industrial heartland in the Red River delta.

Pilots reported that they had hit the heart of the Uong Bi steam power plant and many secondary explosions followed. A U.S. spokesman said the raid knocked out the plant, which he said supplies 15 per cent of North Viet Nam's electric power and is the primary power source for the Hanoi-Haiphong area.

One plane was shot down but the pilot, Capt. Harry D. De Witt of Moscow, Idaho, was rescued. He suffered a broken leg and facial injuries.

**Combat Dead**  
The escalation of the air war against the Communist North came as U.S. military spokesmen announced that U.S. combat dead climbed last week to 91, the second highest weekly toll of the Vietnamese fighting. Seven other Americans were reported missing or captured and 316 wounded in the seven-day period that ended at midnight Saturday.

The Viet Cong carried the war to South Viet Nam's heartland with three hit-and-run attacks on police posts on Saigon's outskirts, killing two policemen and wounding seven. The stepped-up terrorism was believed linked with the approach of the guerrilla movement's fifth anniversary, Dec. 20.

Police killed one Viet Cong after the three guerrilla bands hit two police stations in Saigon's Chinese quarter and an outpost near the big oil storage dump five miles south of the city.

**Planes Lost**  
Two other U.S. planes were lost over South Viet Nam. Red gunners hit an Air Force F102 Delta Dagger jet 85 miles south of Saigon as it attacked a Communist concentration. The pilot parachuted and was picked up by a Vietnamese air force helicopter, a spokesman said.

## Gronouski Meets With Red Chinese

WARSAW, Poland (AP)—U.S. Ambassador John A. Gronouski today opened a meeting with the Chinese Communist ambassador on the war in Viet Nam.

Gronouski met Wang Kuochuan in Warsaw's Myslowiecki Palace.

It was the first session of the 10-year-old U.S.-China talks attended by Gronouski, the former postmaster general who succeeded John Moors Cabot this month as ambassador to Poland.

## Airport Pacts For 2 Airlines Are Approved

Supervisors Set Initial Landing, Weight Fees

An initial set of fees to be charged North Central Airlines and Air Wisconsin for landing and rental space at the Outagamie County Airport was approved Tuesday by the county board.

Contracts covering the fees were signed earlier by representatives of the two airlines and are retroactive to July 1 for North Central and Sept. 1 for Air Wisconsin.

Provisions of the contract, first of its kind covering the new county facility, require North Central to pay fees of \$30 per month for the first scheduled trip arrival, \$20 for the second and \$10 for the third and fourth.

Each additional arrival will be assessed \$10 per month.

Air Wisconsin will be assessed \$15 per month for the first scheduled trip arrival, \$10 for the second and \$5 each for the second and third, with a provision of \$5 for each additional arrival.

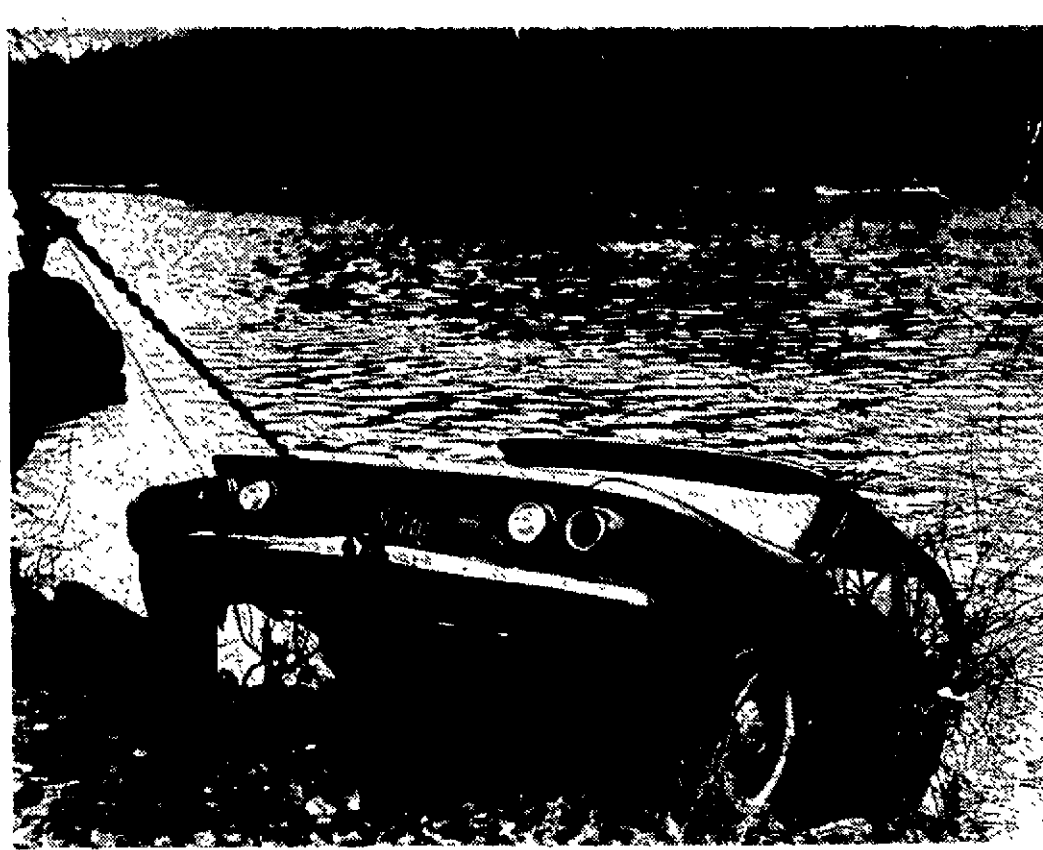

Each airline will pay \$1 for each 1,000 pounds of approved maximum landing weight in excess of 28,000 pounds.

**Land Fee**  
Although that particular provision is not expected to affect Air Wisconsin in the near future, it will make a considerable difference in the landing fees to be paid by North Central which has announced it will replace the DC3 aircraft presently serving this airport, with Convair 340's and 440's on Jan. 1.

Convairs are larger airplanes and weigh about twice as much as the DC 3 which has a weight of about 26,000 pounds. Air Wisconsin uses DeHavilland Dove airplanes which are smaller and weigh less than the DC3.

North Central and Air Wisconsin also will pay an annual fee of \$2 per square foot for rental space in the terminal building, under provisions of the contract. Air Wisconsin presently has exclusive use of about 500 square feet of space and North Central uses 532 square feet.

A 1961 Model Compact car Tuesday was fished from the Wolf River about one-half mile west of New London on County Trunk X. The car, driven by Gordon Palmer, 26, 325 Wisconsin St., New London, was found about 130 feet downstream from where it entered the river Monday. Palmer was unhurt. A skin diver, Joe Quaintance, New London, aided in recovery. (Post-Crescent Photo)

## Car Plucked From Waters Of Wolf River

Skin Diver Aids In Recovery Job Near New London

NEW LONDON — A compact car was pulled from the Wolf River about 10:40 a.m. Tuesday, after two hours of "fishing".

Workers from the towing service attempted to snag the car with a heavy duty treble hook they built, but were unable to hold the car.

Finally a skin diver, Joe Quaintance, 1914 S. Pearl St., donned a cold water suit and trapper hat.

The car owned by Gordon Palmer, 26, 325 Wisconsin St., was found in a deep pocket about 18 feet deep and 20 feet from shore, about 150 feet downstream from where it entered the river.

Palmer was traveling west on Waupaca County Trunk X about 3 p.m. Monday when his car skidded in a curve, traveled about 180 feet and then plunged into the river. The left rear wheel of the car was broken off.

Palmer jumped from the driver's side of the car and grabbed the spare tire to float to safety in the icy water. He was uninjured.

## Ogdensburg Man Escapes Injury; Car Demolished

WAUPACA — A rural Ogdensburg man escaped injury but his car was demolished when he lost control of it while attempting to miss a deer. The car struck some rocks and a tree.

The mishap occurred at 6:30 p.m. Monday three miles north of Ogdensburg on Waupaca County Trunk E. The car was driven by Lauren R. Fletcher, 37, route 2, Ogdensburg, according to county traffic police.

Fletcher told police he was traveling north when a deer jumped in front of his car. He attempted to miss it and lost control of the car which went into the ditch and struck two large rocks before coming to rest against a tree, police said.

# Sagunsky Awarded Contracts for Airport

Roger L. Philippi

## Viet Cong Blast Wounds Dale Man

A 20-year-old Dale Marine have been issued before he went into combat.

**Had Seen Action**  
Philippi, a graduate of New London High School, entered service in August, 1964. He went to Viet Nam last April. Although Mrs. Philippi did not know for sure if her son had been engaged in major action, she said he did mention that he had seen some fighting prior to being wounded.

The Marine reportedly is in a rifle company. He had talked about the possibility of being transferred out of Viet Nam in April, Mrs. Philippi said.

**Needed Glasses**  
The mother said her son had written home only a week before he was injured saying that his glasses were broken and he hoped he would not have to go into the field before new glasses were issued him since, according to his mother, his vision is poor. She had ordered her son new glasses.

Mrs. Philippi said that although her son thought it would be a month before he could get different glasses, they could be made in a week.

**Church Choir to Give Concert at Waupaca**  
WAUPACA — The Senior Choir of the First Methodist Church will present a concert at 8 p.m. Sunday in the church.

The choir, under the direction of Gerald Knoepfel, will present a program of Christmas music. John Brooks will be the accompanist for the choir and Jeff Lanier will be the narrator. The concert is open to the public.

**Charge in Traffic Death**  
William P. Dercks, 18, 1164 Harrison St., Kaukauna, charged following the traffic death Nov. 4 of another Kaukauna youth, this morning pleaded innocent of driving too fast for conditions.

County Judge Gustave J. Keller set trial date for 9 a.m. Thursday. Dercks posted a \$450 bond.

The charge against the Kaukauna youth was made by Outagamie County traffic police who investigated the one-car accident at County Trunks 2 and 22 that resulted in the death of William L. Hietpas, 18, 408 W. Fifth St.

Dercks, driver of the car, was injured in the accident as was Clifford H. Holschuh, 18, route 3, Kaukauna.

A coroner's inquest Nov. 23 resulted in a determination that the youth was driving too fast for conditions.

# Chilton Teacher Association Is Recognized as Bargainer

District to Share CESA Speech Correctionist Starting Jan. 1

CHILTON — The school board voted Monday to recognize the Chilton Teachers' Association as the exclusive negotiating agent for teachers.

This does not change existing operations, but gives legal status to the association as faculty bargaining agent.

The local association, a branch of the Wisconsin Education Association, is now bargaining agent in matters of salaries, hours and working conditions for non-supervisory personnel.

**Hire Speech Man**

Supt. A. W. Gordon said that Coordinator Norman Larson for District 10 of the Cooperative Education Service Agency (CESA), has hired a speech correctionist to be shared by three Calumet County school systems.

James Larson, Minnesota, will begin his duties Jan. 1, coming to Chilton three days a week.

and to Hilbert and Brillion one day each.

Faculty members authorized to attend conventions are John Sandberg, high school principal, who will serve on the accreditation committee at the North Central Association Convention in Chicago March 28-30.

Darrell Gilow, vocal music director, and Marvin Hoffmann, band director, will attend the State Music Convention in Madison Jan. 8-10.

**Convention Delegate**

Clerk Al W. Larson was named as delegate to the Milwaukee convention of Wisconsin Association of School Boards Jan. 19-20. Arthur Horst was named alternate.

Elementary Prin. George Herrmann said that about 89 per cent of the elementary parents had attended recent conferences. He said this was down about 3 per cent from last year, but might be considered in light of increased enrollment.

Herrmann said the open house, tried for the first time this year, had received favorable comments from parents and teachers. He said it would not be attempted every year, but rather might be considered every three years.

**Parent Conferences**

John Sandberg, high school principal, said approximately 30 per cent of all high school parents attended during the conference period.

Unlike the elementary conferences, which involve formal invitations for certain times, parents come on their own to

confer with high school teachers.

Sandberg said in the future teachers might consider inviting a certain number of parents whom they felt it important to meet.

Both principals said that all teachers felt the conferences were valuable to parent, teacher and pupil.

**Reworking Plans**

Arthur Horst, building committee chairman, reported that architect Raymond LeVe, Appleton, is reworking plans for the proposed high school addition in an attempt to reduce the contract costs to the estimated \$200,000 budgeted this year.

The addition will have a new library-study hall to be built over the old gym and new science laboratories to be constructed above the band rooms. The addition, needed because of increasing high school enrollment which is overcrowding existing facilities, was approved by voters at the annual district meeting.

However, bids opened Sept. 24 were all rejected as being too high. Of the 11 bids submitted, low bids totaled \$263,740.

**Higher Costs**

LeVe attributed some of the increase to higher labor and material costs.

Supt. Gordon mentioned possible deletions as including the proposed air cooling system for the library and indirect lighting in the old gym.

Horst said LeVe hopes to be ready to re-advertise by mid-January so bids can be opened in February. Horst will report again at the next meeting.

Al Larson and Milan Gasch reported on the meeting they

Turn to Page 3, Col. 1

# Principal Resigns From Marion High

Malcolm Anderson Will Take Post With Boys' School Near Plymouth

MARION — The resignation of Malcolm Anderson, principal and instructor at Marion High School for the past 20 years, was accepted Monday by the board of education.

Anderson has accepted a job as guidance counselor at the State School for Boys at Plymouth.

He will leave at the end of the first semester. No replacement has been named.

Anderson came to Marion in

1945, to teach science and became principal in 1958. He also teaches physics and is the National Honor Society adviser and co-adviser of the student council.

He received his Bachelor's degree in education from Wisconsin State University-Stevens Point and his Master's degree from the University of Wisconsin, Madison.

Mr. and Mrs. Anderson will continue to live in Marion for the present.

**Ask About Picket**

Two representatives of the National Labor Relations Board asked the board about the picket from an Appleton trade union who picketed the Kucksdorf Construction Co., general contractors for the new grade school here. The board had sent a complaint to the NLRB.

The board also discussed finding a basketball practice area for youngsters attending the Leopold School.

## Stamp Sales Total \$417

SHIOCTON — U.S. Savings Stamp sales by the American Legion Auxiliary here in November totaled \$417.50, an average of \$83.50 a week.

Stamps are sold each Monday at the elementary school by Mrs. Earl Kuether, Mrs. Paul Winterfeldt, Mrs. Allen Gundersen, Mrs. Donald Curtiss and Mrs. George Kennedy.

Albums were completed by Terry Felner, Susan Beyer, Mary Joe Lee, Shelley Curtiss, Vicki, Wendy and Daniel Oberstadt.

## Tipsy Driver Gets Jail Term

Driver's License Of Weyauwega Man Revoked for Year

WAUPACA — Edward Anderson, 33, route 2, Weyauwega, driver of a car which was involved in a car-train crash Monday near Weyauwega, was sentenced to 45 days in the county jail Tuesday when he appeared in Municipal Justice Court and pleaded guilty to a charge of driving while under the influence of intoxicants.

Anderson was sentenced to the jail term after he was unable to pay a \$200 fine and costs. His driver's license was revoked for one year.

Anderson's car was extensively damaged when he made a wrong turn Monday evening off of County Trunk AA onto the Soo Line Railroad right-of-way.

After driving 300 feet between two sets of tracks his car stalled and while he was gone for help a speeding 78-car freight train struck the car.

Rudy Small, Chairman of the Northeast Wisconsin Education Committee, and Sen. Robert Warren, Green Bay, chat with Art Hugo, president of the Chilton Chamber of Commerce and Robert Ambrosius, Brillion Chamber representative. Warren and Small met with representatives of the two communities in Chilton Tuesday regarding the location of the new four-year university of Wisconsin to be located somewhere in the northeast part of the state. Both Brillion and Chilton had shown interest in being considered as sites. (Youngsteadt Photo)

## Outagamie Board Move Ends Debate

After deliberating for an hour Tuesday morning and all of Tuesday afternoon, the Outagamie County Board at 5 p.m. awarded Max Sagunsky a two-year contract as manager of the airport and a five-year contract with a five-year option as fixed base operator at the airport.

The approval, on a 40 to 10 vote, came after a group of supervisors failed in their attempt to have the job split into two separate positions.

Supvs. Patrick Mares (Appleton 18) and Eugene Kloas (Appleton 4) argued that a separate airport manager should be hired by the county immediately.

**Reject Delay Attempt**  
Also, the county board rejected two attempts by Town of Grand Chute Supv. Thomas Thorson to have the matter delayed for more study by the executive committee and to have Corp. Counsel Albert W. Ponath prepare a contract which would be brought back to the county board for approval during the January, 1966 session.

The resolution which was finally passed contained Sagunsky's airport manager salary and a rental agreement for the fixed base operation. It also specified that Ponath should prepare a contract which includes all the duties and responsibilities of both positions which is to be signed by County Clerk Mollie Pfeiffer.

In addition, the resolution specifies that after the contract with Sagunsky has been in effect for one year, it will be brought back to the airport committee and the county board where all provisions will be subject to review.

**\$5,700 Salary**

Provisions of the contract will include an airport manager's contract for two years at an annual salary of \$5,700. As fixed base operator, Sagunsky must pay the county \$2,400 for rental of airport facilities during 1966.

The rent will increase by \$900 each year until 1970 when the total will be \$6,000. In addition, he will pay the county one cent for each gallon of gasoline sold to non-commercial and non-military aircraft, and one-fourth cent for each gallon sold to commercial aircraft.

Sagunsky can choose to renew the option on the fixed base operator's contract after five years.

**Had 10-Year Pact**

Technically, Sagunsky has been filling both positions at the new Outagamie County Airport without a contract since the facility opened last August. He did have a 10-year contract, with a 10-year option, for managing the old airport that would have been in effect until 1978.

Ponath had ruled, however, that the old contract did not apply to operations at the new airport. Supv. Mark Catlin Jr., (Appleton 7), also an attorney and chairman of the airport committee, disagreed with Ponath, but still negotiated a new contract with Sagunsky.

Mares objected to the method used in filling the post. He said the county should have advertised for an airport manager-fixed base operator. "How do we know what kind of proposal we can get from somebody else if we don't advertise?" Mares asked.

**Backed Sagunsky**

J. L. Donoghue, president of Ralph H. Burke, Inc., Park Ridge, Ill., the county's airport engineer and consultant, and Fritz Wolff of the Wisconsin State Aeronautics Commission, Madison, appeared before the board and recommended that Sagunsky be retained.

Wolff said it would be "more economical and practical" for the county to keep Sagunsky in both positions temporarily.

"With the advent of your second runway and additional hangar space, your operation will eventually become more complex and sophisticated. At this time," Wolff said, "which may be within two years, you should hire a separate airport manager."

Mares and a few other supervisors contended they would rather see the county spend the \$10,000 for a full-time manager immediately.

Turn to Page 3, Col. 1

A Fully Decorated Christmas tree appeared atop the Ogdensburg fire station roof in its traditional place beside the siren, but nobody quite knew how and why. Nobody that is, but three Iowa youths and Loran Frazier, Waupaca County Sheriff. Last year the youths were apprehended after they damaged the tree so this year they replaced it. (Post-Crescent Photo)

Christmas in Ogdensburg

## Youths Fulfill Promise On Community's Tree

OGDENSBURG — The Garden's Club tradition of donating the community Christmas tree for on top of the fire station, was suspended this year in favor of an agreement between Sheriff Loren Frazier and three Iowa youths.

This year the tree was donated, installed and decorated by the youths.

A few days before Christmas last year they climbed to the station roof, proceeded to cut off all the decorated tree limbs and throw them to the ground. Garden Club members and other Ogdensburg residents frowned upon such acts of vandalism and reported the incident to Sheriff Frazier.

Turn to Page 3, Col. 1

# Hunters Kill 4,045 Deer in Waupaca

Gun Season Total Up 25 Per Cent in County Over 1964

WAUPACA — The total number of deer killed in Waupaca County during this year's nine-day gun season was 3,794, 25 per cent increase over last year when 2,894 were killed during a similar period.

An additional 251 deer were registered during the early bow and arrow season. These figures coupled with an estimated 600 deer killed by cars and another 210 that died from being crippled by gun, bow or car brings the grand total for the year to 4,045, according to Jerry Reickhoff, conservation department district game manager.

This total is expected to near the 5,000 mark with deer still being taken by bow hunters and others being killed daily on the highways.

**High Yield**  
Waupaca County is expected to be one of the highest yield counties of the state based on the number of square miles of deer range in the county.

Reickhoff said there are 383 square miles of deer range in the county and the kill per acre by gun and bow was 13.3 deer, which is considered above average. "With these figures the productive capacity of the county is shown," he said.

Of the deer killed during the gun season, 2,817 were bucks, compared with the 2,091 killed last year and the 1965 party deer kill was 977 compared with last year's 758.

Although it appeared to hunters and other residents that the 1964-65 winter was an easy one for the deer in the county, the conservation department has turned this is not true because of the lack of snow. Reickhoff reported that from checking the deer taken this season the deer development of the bucks was not good last year. Several of the bucks had broken or damaged antlers, which is an indication there was a great deal of competition between deer for the amount of available food.

Snow and temperature are the only factors that must be taken into consideration in determining whether or not the winter was a good season, he said. "The number of deer in the herd that are out fighting for what food is available is one of the contributing factors," he added.

## Dale Nichols Leads League

Shiocton Businesses Plan for Santa's Visit Saturday

SHIOCTON — Dale Nichols was re-elected Business League president at a recent meeting at the village hall.

Other officers named were Vernon Tackman, vice president and Warren Andrews, secretary-treasurer. Directors elected were Nichols, Tackman, Andrews and Norman Knorr.

Santa will visit the village 2 p.m. Saturday. Jack Tackman, community club president said.

Ermer Johnson, chairman of the Christmas decorations contest, and judges would be giving prizes to the Rev. Eugene Holsch and the Rev. Norman Knorr.

Awards will be made for \$20, first place; \$15, second; \$10, third, and \$5, fourth.

Percy Braatz was named to work into the benefits of the community club president said.

Robert Lee, high school guidance director, will meet with the club in January to set up a scholarship to be awarded the first time in 1966.

The annual spring ice-out contest will have a \$100 U.S. savings bond offered as first prize. A \$50 bond will be awarded the second and a \$25 bond for third and fourth place winners.

**Auction Proceeds to be Used for Seymour Shut-Ins**

SEYMOUR — Proceeds from a gift auction at the Woman's club meeting Monday night at the elementary school will be used for shut-ins of the area.

Capt. Ronald Decker, Seymour Police, will speak at the meeting which will have a safety theme. Mrs. Kenneth Zeiler and Mrs. Roger Johnson will be program chairmen.

The club met for a 7 p.m. o'clock supper. Program chairmen were Mrs. Robert Coenen and Mrs. Robert Eick. Hostesses were Mrs. Maynard Sherman, Mrs. Ernest Schuster and Mrs. Carl Tickler.

Mrs. Ronald Paze was welcomed as a new member.

Mrs. Ronald Paze was welcomed as a new member.

## Brillion Woman Rolls 528 Series

BRILLION — Mrs. Leo Rank rolled games of 184, 180 and 164 on her way to a 528 series for Westgor's team in Women's League bowling at Koffarnus Lanes.

Mrs. John Saubert had a 511 series for Warren's Skelly Service and Ginny Stecker scored a 504 for Krizesky's Bar team. Pete's Barber Shop team is in first place with a 30-9 record. Their 859-game and 2,417-series was high for the week.

Brillion Sport Shop is second with a 29-10 record followed by Warren's Skelly and Doughty's Grocery, tied for third with 27½-12½ records.

## State Buys Site For King Home Sewage Plant

Town of Dayton Land Selected; OK Other Projects

Post-Crescent Madison Bureau  
MADISON — Purchase of land in the Town of Dayton for construction of a sewage disposal plant for the institution was one of several improvement plans for the Grand Army Home for Veterans at King approved Tuesday by the State Building Commission.

Replacement of the existing sewage system is planned. The commission's site approval action included the acquisition of an easement to provide a connection with the institution.

**Approved Requests**  
In other actions the commission approved requests for:

— Release of about \$118,000 for electrical utility extensions and replacement at the institution.

— Preparation of plans at a cost of \$35,000 for a proposed steam distribution addition to the power plant and to relocate the steam distribution lines.

— Drawing of plans at a cost of \$25,000 for the construction of a tunnel between the infirmary-dormitory building and the central services building on the institution grounds.

**Ask for Study**  
The commission deferred for review a proposal of the institution's management for the construction of six duplex cottages and the razing of other, old cottages now occupying the sites proposed for the new housing. The six units would cost about \$118,000. The proposal was referred to a committee for additional study.

The institution explained that the cottages are from 50 to 75 years old, that they are expensive to maintain and inconvenient and uncomfortable for the couples who occupy them. There are about 39 of the units and the hope is to replace all of them ultimately.

**Ashland Pastor Accepts Post At Amherst**

AMHERST — Rev. John Muller, who has been pastor of Zion Lutheran Church, Ashland, will be the new pastor of St. Paul Lutheran Church here.

The congregation has been without a pastor since February when Rev. Ronald Goetsch resigned.

Pastor and Mrs. Muller plan to move into the Lutheran parsonage Dec. 28. Plans are being made for a Jan. 2 installation service.

**Women of Moose To Make Favors**

CLINTONVILLE — The Women of the Moose will make favors for rest home patients when they meet at 8 p.m. Thursday at the lodge.

The annual Moose family Christmas party will begin with a potluck supper at 7 p.m. Sunday. Santa Claus will visit Mrs. Matt Dahm and Mrs. John A. Johnson are co-chairmen of decorations.

Members of the Mooseheart committee and guests staged their annual Christmas party Monday night at Fischer's Riviera Supper Club and at the Henry Krueger residence. Gifts were exchanged.

**Marion Girl Scouts, Brownies Entertain Mothers at Tea**

MARION — Cadette and Junior Girl Scouts of Troop 228 and Brownies of Troop 3, entertained their mothers at a tea Monday night at the school.

Kathy Sether, master of ceremonies, introduced the leaders, Mrs. Lyle Henschel and Mrs. William Newcomb.

The Junior Girl Scouts presented a skit. Mrs. Garland Sturms is the leader, assisted by Mrs. R. Schroeder. The Cadettes sang two Christmas songs. Soloists were Callie Salzman, Mrs. Joe Brandenburg is their leader.

After the program badges were awarded and a lunch served.

## Clintonville District

### School Board Accepts Resignation of Nurse

CLINTONVILLE — The board of education of Joint School District No. 1 Tuesday accepted the resignation of Mrs. Russell Tanner as city-school nurse, effective Dec. 31.

In a letter to the board, Mrs. Tanner said she is resigning her post to accept a position as Waupaca County nurse.

The board then moved to advertise for a replacement. Upon the recommendation of the personnel and welfare committee, the board approved a \$1 a day increase in the wages of all the full-time cooks in the hot lunch program. (Chief cook from \$12 to \$13; assistant chief cook from \$10 to \$11, and from \$8 to \$9 for the other full-time cooks.)

Also upon the recommendation of the personnel and welfare committee, the board approved a \$24 per month raise for Ervin Graper, the school bus mechanic, bringing his monthly pay to \$460.

The board moved to secure a bookkeeping machine on a three-year lease basis with option to buy after any one year. Supl. K. O. Rawson said, "We are getting further behind all the time in bookkeeping. A machine will speed up work in compiling reports, costs, etc."

Mrs. McCauley told the board she understood the Clintonville branch of the American Association of University Women would like to have a children's theater production presented in Clintonville, and from information available, the possibility was that a production might be brought here on a school day. Although no formal action was taken by the board, indications were that the board would cooperate with the AAUW.

## Seymour Eyes Second-Place Tie in NEW

Duels Oconto Falls Friday; Bonduel Meets Algoma

Seymour High School Friday night shoots for a second-place tie in the Northeastern Wisconsin Conference.

The basketball Indians play host to surprising Oconto Falls, which has the same record as Seymour (2-1). The winner of the game will move into a second-place tie with the loser of Thursday night's first-place battle between DePere and West DePere.

Bonduel will be searching for its first conference win Friday night when it entertains Algoma, which has won once in three tries.

There is little to choose, statistically, between Seymour and Oconto Falls. The Indians have scored two fewer points (199 to 197) in three games but own a defensive edge — 185 to 200. Bonduel has scored more points than Algoma (162 to 155) but the Algoma defense has been far better — 158 to 234.

The DePere-West DePere battle is set for the Brown County Veterans Arena. Both are unbeaten.

**Chilton Man Pays \$50**  
CHILTON — Alvin T. Schneider, 47 Chestnut St., forfeited \$50 bond on a charge of inattentive driving in Calumet County Court Monday.

Schneider was arrested following an accident Nov. 7 at 211 E. Main St.

Theater production presented in Clintonville, and from information available, the possibility was that a production might be brought here on a school day. Although no formal action was taken by the board, indications were that the board would cooperate with the AAUW.

## Mayor Appoints Hietpas

### Seymour Police Chief New Building Inspector

SEYMOUR — Police Chief William Hietpas was appointed city building inspector Monday night by Mayor Ben Truymann to replace former chief Bernard Plumb who has moved from the city.

Plumb had earlier submitted his resignation effective Dec. 1 and urged the mayor to name a resident of the city.

Salary for the inspector will continue on a building permit fee basis until the new \$200 annual salary approved in the budget takes effect May 1, 1966.

Hietpas' appointment and those of Frank Longrie and Miss Hilda Koepp to the library board were confirmed by the council.

The council authorized City Clerk Josephine Marnocha to cash the \$10,000 certificates of deposit if needed to cover year-end expenses of the city.

City Atty. Michael Burns was authorized to negotiate with Swift and Co. for a pie shaped parcel of land abutting Mill and Wisconsin Streets to correct a jog in Wisconsin Street as it proceeds east from the U. S. Post Office to the Seymour Canning Co. property.

The council authorized Earl Gosse, public works superintendent, to purchase an electric shears for \$148 for use at the city garage, and electric lights for the new skating rink. A beer bar operator's license was approved for William T. Page for the Country Cousin's Bar.

The city will be unable to advertise for bids on the new fire station early next month as was previously anticipated. Delays in clearing the 186 foot site and further conferences with architect Jeffery Nichols of Green Bay are pushing the original target date further into the future.

Through a series of purchases this fall the city has acquired four parcels of property from the corner of Prairie and Main Streets to the Seymour Theatre building. Most of the lots have a depth of 180 feet.

Bids on a new police car will be opened at 8 p.m. Monday at the high school.

**Theresa Rozman Hits 569 Set In Chilton Loop**  
CHILTON — Theresa Rozman's 569 was the high series in the Monday Night Ladies Major League at the Pla-Mor Lanes. She had games of 183, 170 and 211.

Mrs. Rozman's State Bank teammates won the first half league championship by a half game over the Chilton Millwork. Tied for third place were the Hedrich Construction Co. and the Lake to Lake.

Other high scores Monday night included Arlene Schroeder's 226 game and 539 series. Rose Gritner came up with a 202 game and 552 series; Beulah Hawig, 534; Alice Connors, 532; Florence Bruckner, 513; Mildred Daun, 504; Jovie Friedrichs, 502.

The championship State Bank team rolled high three-game and high single game scratch totals with scores of 2,419 and 812.

**Clintonville Utility Reviews Applications For Vacant Position**  
CLINTONVILLE — The Water and Light Commission Monday reviewed the 18 applications for the position of cashier-clerk, which was previously held by James Lindow, who has been appointed city treasurer-assessor.

No decision was reached. Lindow assumed his duties with the city today.
